INTRODUCTION

The world of voice search and Amazon Alexa is a great opportunity for you to grow your brand, and help your clients.

I'm really excited about all of the opportunity this relatively new technology has and all of the possibilities!

During my research, I've uncovered some resources that I found valuable, and I think you will too!

The world of voice is always changing, and some of the links may or may not work. All of the resources were working at the time of publication.

I'm excited to share this amazing 'new' online marketing opportunity!

Alexa and echo are registered trademarks of Amazon inc.
